

352063 NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification

Product Identifier	FRESH START Concentrated Malodor Counteractant	
Other means of identification	1415	
Recommended use	Odor control agent.	
Recommended restrictions	For commercial and industrial use only.	
Manufacturer / Importer / Supplier / Distributor Information		
Company Name	National Chemical Laboratories of PA, Inc.	
Address	401 N. 10th Street - Philadelphia, PA 19123	
Telephone	1 (215) 922-1200	
Supplier Email	info@nclonline.com	
Contact	CHEM-TEL	
Emergency Phone	1 (800) 255-3924	

Section 2 - Hazard(s) Identification

	ds and Warnings are based on the undiluted product. Re	for to diluted CDC for Boody To Lice Hererds and	Warnings
SDS Hazaro	. .	-	er anningst
	Classification	Category	
Physical Hazards	Not Classified	24	
Health Hazards	Serious eye damage/eye irritation	2A	
	Skin corrosion/irritation	2	
OSHA defined hazards	Not Classified.

	SAFEI I DATA SHEET
Most Important symptoms /effects, acute and delayed	Causes serious eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.
Indication of immediate medical attention and special treatment	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
	Section 5 - Fire-fighting measures
ouitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Jnsuitable extinguishing nedia	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	Use standard firefighting procedures and consider the hazards of other involved materials.
Specific Methods	No unusual fire or explosion hazards noted.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled materia unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This product is miscible in water. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Do not get this material in contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
	Section 8 - Exposure control/personal protection
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.
ndividual protection measures, s	uch as personal protective equipment
Eye/face protection	Wear safety glasses with side shields (or goggles) and a face shield.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Not available.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
	Section 9 - Physical and chemical properties
Appearance	
Physical state	Liquid.
Form	Clear, thin liquid.
Color	Blue.
Odar	

рΗ

Melting point/freezing point	Not relevant.
Initial boiling point and	212 °F (100 °C)
boiling range	
Flash point	> 212.0 °F (> 100.0 °C)
Evaporation rate	Not availiable.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Similar to water.
Relative density	1.00 ± 0.01
Relative density temperature	75 °F (23.89 °C)
Solubilities	Completely soluble.
Partition Coefficient n-	Not available
octanol/water	
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	<10 cSt
Viscosity Temperature	75 °F (23.89 °C)

Section 10 - Stability and reactivity

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition	No hazardous decomposition products are known.
Products	

Section 11 - Toxicological information

Information on likely routes of ex	posure	
Ingestion	Expected to be a low ingestion hazard.	
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.	
Skin contact	Prolonged or repeated skin contact may cause drying, cracking, or irritation.	
Eye contact	Causes serious eye irritation.	
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.	
Information on toxicological effe	cts.	
Acute toxicity	Not expected to be acutely toxic.	
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.	
Serious eye damage/ eye irritation	Causes serious eye irritation.	
Respiratory sensitization	This product is not expected to cause respiratory sensitization.	
Skin sensitization	Not classified.	
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.	
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.	
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.	
Specific target organ toxicity - single exposure	Not classified.	
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	Not available.	
Chronic effects	Prolonged inhalation may be harmful.	
Section 12 - Ecological Information		
Ecotoxicity	The product contains a substance which is toxic to aquatic organisms. May be harmful to the environment if released in large quantities.	
Persistence and degradability	No data is available on the degradability of this product.	

		SAF	ETY DATA SHEET	
Bioaccumulative potential	No data availa	ble.		
Partition coeficient n-oc	tanol / water log (Kov	w)		
Components		-,	Results	
4-Nonylphenol, branc	hed. ethoxylated (CAS	127087-87-0)	2.1 - 3.4 (Calculated)	
Mobility in soil			and may spread in water systems.	
Other adverse effects	None known.			
		Section 1	3 - Disposal considerations	
Disposal instructions	Dispose in acc	ordance with ap	pplicable federal, state, and local regulations.	
Local disposal regulations	Dispose of in a	accordance with	local regulations.	
Hazardous waste code	Waste codes s	hould be assign	ed by the user based on the application for which the product	was used.
Waste from residues / unuse products	d Dispose in acc	ordance with all	applicable regulations.	
Contaminated packaging	Since emptied	containers may	v retain product residue, follow label warnings even after conta	ainer is emptied.
		Section	14 - Transport information	
оот	Not regulated a	as dangerous go	ods.	
ATA	Not regulated a	as dangerous go	ods.	
MDG	-	as dangerous go		
Fransportation in bulk	This substance/	'mixture is not in	ntended to be transported in bulk.
