SAFETY DATA SHEET

W11001005/W11001010

Section 1. Identification

| Product name | : WHITE LIGHTNING® 3006™ ULTRA All Purpose Elastomeric Sealant Clear |
|--|---|
| Product code | : W11001005/W11001010 |
| Other means of identification | : Not available. |
| Product type | : Liquid. |
| Relevant identified uses of | the substance or mixture and uses advised against |
| Paint or paint related materia | ıl. |
| Manufacturer | : White Lightning Products 101 W. Prospect Avenue Cleveland, OH 44115 |
| Emergency telephone number of the company | : (216) 566-2917 |
| Product Information Telephone Number | : (800) 241-5295 |

Section 2. Hazards identification

: (800) 424-9300

Transportation Emergency

Telephone Number

| OSHA/HCS status | : | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. | |
|--|---|--|--|
| Classification of the substance or mixture | : | Not classified. | |
| | | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 6.4% (dermal), 6.4% (inhalation) | |
| GHS label elements | | | |
| Signal word | : | No signal word. | |
| Hazard statements | : | No known significant effects or critical hazards. | |
| Precautionary statements | | | |
| General | : | Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. | |
| Prevention | : | Not applicable. | |
| Response | : | Not applicable. | |
| Storage | : | Not applicable. | |
| Disposal | : | Not applicable. | |
| Supplemental label elements | | WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. | |
| | | Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage. | |

Section 2. Hazards identification

Hazards not otherwise classified

: None known.

Section 3. Composition/information on ingredients

Substance/mixture

Other means of identification

: Mixture

: Not available.

CAS number/other identifiers

| Ingredient name | % by weight | CAS number |
|------------------------|-------------|-------------|
| Paraffinic Mineral Oil | ≤10 | 8042-47-5 |
| Fumed Amorphous Silica | ≤5 | 112945-52-5 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

| Eye contact | : | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
|--------------|---|--|
| Inhalation | : | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : | Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

Most important symptoms/effects, acute and delayed

| Potential acute health effe | <u>cts</u> |
|---------------------------------|---|
| Eye contact | : No known significant effects or critical hazards. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |
| <u>Over-exposure signs/symp</u> | <u>otoms</u> |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |
| Indication of immediate mee | dical attention and special treatment needed, if necessary |
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |
| | |

| Date of issue/Date of revision | : 5/20/2024 | Date of previous issue | : 2/5/2024 | Version : 20.01 | 2/11 |
|---|-----------------|-----------------------------|------------|------------------|------|
| W11001005/W11001010 WHITE LIGHTNING® 300 Clear | 06™ ULTRA All I | Purpose Elastomeric Sealant | | SHW-85-NA-GHS-US | |

Section 4. First aid measures

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--|---|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: metal oxide/oxides |
| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protect | ive equipment and emergency procedures |
|--------------------------------|--|
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| For emergency responders | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | ntainment and cleaning up |
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautions for safe handling | |
|--|--|
| Protective measures | : Put on appropriate personal protective equipment (see Section 8). |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits (OSHA United States)

| Ingredient name | CAS # | Exposure limits |
|------------------------|-------------|---|
| Paraffinic Mineral Oil | 8042-47-5 | ACGIH TLV (United States, 7/2023). [Mineral Oil, pure, highly and severely refined] TWA: 5 mg/m ³ 8 hours. Form: Inhalable fraction NIOSH REL (United States, 10/2020). [OIL MIST MINERAL] |
| | | TWA: 5 mg/m ³ 10 hours. Form: Mist STEL: 10 mg/m ³ 15 minutes. Form: Mist OSHA PEL (United States, 5/2018). [Oil mist, mineral] TWA: 5 mg/m ³ 8 hours. |
| Fumed Amorphous Silica | 112945-52-5 | NIOSH REL (United States, 10/2020). [SILICA, AMORPHOUS] TWA: 6 mg/m ³ 10 hours. |

Occupational exposure limits (Canada)

| Ingredient name | CAS # | Exposure limits |
|------------------------|-----------|---|
| Paraffinic Mineral Oil | 8042-47-5 | CA Ontario Provincial (Canada, 6/2019). [Mineral oil, excluding metal working fluids (pure, highly and severely refined)] TWA: 5 mg/m ³ 8 hours. Form: Inhalable particulate matter. CA British Columbia Provincial (Canada, 8/2023). [Oil mist - mineral, severely refined] TWA: 1 mg/m ³ 8 hours. CA Alberta Provincial (Canada, 3/2023). [Oil] OEL: 5 mg/m ³ 8 hours. Form: Mist OEL: 10 mg/m ³ 15 minutes. Form: Mist |

Occupational exposure limits (Mexico)

Section 8. Exposure controls/personal protection

| | | | CAS # | Exposure limits | |
|---|----------------------------|---|----------------|---|--|
| Paraffinic Mineral Oil | | | 8042-47-5 | NOM-010-STPS-2014 (Mexico, 4/2016). [Aceite mineral puro, alta y muy alta refinación, nieblas, except fluidos de corte de metal] TWA: 5 mg/m ³ 8 hours. Form: mist | |
| Biological exposure indice | s (United St | ates) | | | |
| No exposure indices known | | | | | |
| Biological exposure indice No exposure indices known | | | | | |
| Biological exposure indice | <u>s (Mexico)</u> | | | | |
| No exposure indices known | • | | | | |
| Appropriate engineering controls | : Good g contan | | on should be s | ufficient to control worker exposure to airborne | |
| Environmental exposure controls | they co cases, | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. | | | |
| Individual protection meas | <u>ures</u> | | | | |
| Hygiene measures | eating, Approp Wash | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. | | | |
| Eye/face protection | assess gases the ass | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side- shields. | | | |
| Skin protection | | | | | |
| Hand protection | worn a | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. | | | |
| Body protection | perforr | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. | | | |
| Other skin protection | based | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. | | | |
| Respiratory protection | approp respira | | | | |

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| <u>Appearance</u> | |
|---|--|
| Physical state | : Liquid. |
| Color | : Clear. |
| Odor | : Not available. |
| Odor threshold | : Not available. |
| рН | : 8.3 |
| Melting point/freezing point | : Not available. |
| Boiling point, initial boiling point, and boiling range | : 100°C (212°F) |
| Flash point | : Closed cup: Not applicable. |
| _ | |

| Flammability Lower and upper explosion limit/flammability limit | Not available.Not available. |
| Flammability Lower and upper explosion limit/flammability limit Vapor pressure | Not available.Not available.2.3 kPa (17.5 mm Hg) |

| Media | | Result |
|--|---|-------------------|
| cold water | | Partially soluble |
| Partition coefficient: n- octanol/water | : Not | applicable. |
| Auto-ignition temperature | : Not available. | |
| Decomposition temperature | : Not available. | |
| Viscosity | : Kinematic (40°C (104°F)): >20.5 mm²/s (>20.5 cSt) | |
| Molecular weight | : Not applicable. | |
| Heat of combustion | : 0.646 kJ/g | |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : No specific data. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 16. Other information

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

Procedure used to derive the classification

Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
