Local authorities should be advised if significant spillages cannot contained. For personal protection, see section 8 of the SDS.	
Methods and materials for	Use water spray to reduce vapors or divert vapor cloud drift. Prevent product from entering dra	
containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or eart and place into containers. Following product recovery, flush area with water.	
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.	
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the S	
Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of a environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge in drains, water courses or onto the ground.	
7. Handling and storage		
Precautions for safe handling	Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure.
