

SharkBite®, the original innovator in fast, hassle-free plumbing connections, has taken their industry-changing product line to a whole new level. They listened to customer feedback and enhanced all the incredible SharkBite features you already love, delivering **SharkBite Max™!**

SharkBite Max still offers a strong, watertight fit without glue or soldering—even on wet pipes—and it's still compatible with PEX, Copper, CPVC, and PE-RT. Max delivers double the burst pressure protection, the same reliable grip using half the insertion effort, and a reinforced steel collar for increased durability.

How durable? *SharkBite Max comes with a 25-YEAR warranty when used with PEX, Copper, CPVC, and PE-RT pipe!*

IMPORTANT!

- The shift to SharkBite Max is ongoing as individual Gen-1 models are discontinued.
- Chadwell Supply will keep current item numbers and as Gen-1 items sell out, we will fill orders with the Max version.
- Customers may receive either model until inventory is replaced.
- All SharkBite products are expected to be updated to Max by early 2024.
