A2L Refrigerant Supply Challenges

The new A2L refrigerants—R-454B and R-32—are experiencing significant pricing volatility and product scarcity.

- **A2L Equipment:** Goodman (R-32) and Airquest (R-454B) inventory is on hand in most local branch locations. AirQuest R454B FHMA Air Handlers ETA late June.
- **A2L Refrigerant:** Manufacturers report limited availability, extended lead times, and rising prices.
- Chadwell Supply has implemented one per customer per day order restrictions on R-454B refrigerant.

HVAC Tools Update

Chadwell Supply is stocking a variety of [A2L compatible tools](#) including digital and analog manifold sets, recovery cylinders, recovery machines, vacuum pumps, leak detectors, reverse thread tank adapters, mitigation devices, and refrigerant stickers for R-32 and R-454B.

HVAC Regulation Update

- As of January 1, 2024, the EPA has required a 40% reduction in the production of higher-GWP refrigerants including R-410A.
- This is a phase down, not a phase out, R-410A refrigerant will still be available.
