

1 SELECT YOUR COLOR AND FINISH

SOME OF
OUR MOST
POPULAR
COLORS

Standard finishes with
shortest lead time are listed.

Laminate countertops come in thousands of colors and textures. However, in multifamily you need access to readily available and cost-effective options.

These featured colors are some of our most popular colors and finishes.

2 SELECT YOUR EDGE AND PROFILE

Countertop edges and profiles have many options, however in multifamily living we have found the **Waterfall** and **Square** edge to be the most popular and easiest to maintain.

TIP: The postform (attached backsplash) profile is the best option for kitchens and vanities where there is a chance the wall edge will be exposed to water.

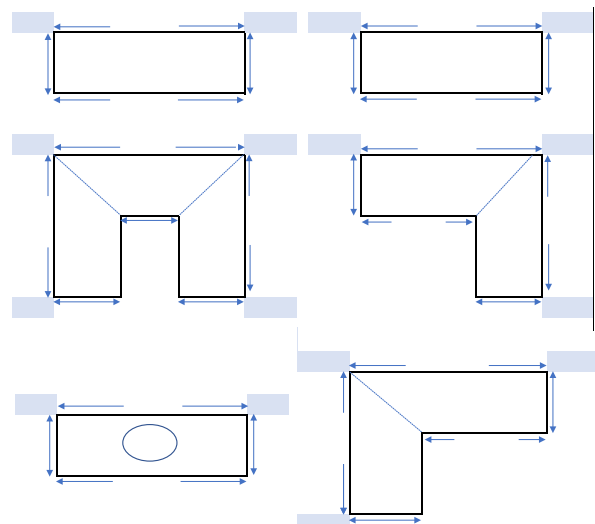

The single roll profile can be installed with a separate laminate or tiled backsplash.

Note: Other edge profiles are available.

3 MEASURE AND ORDER

Measuring is easy, you don't have to do anything other than call your Chadwell Supply Territory Manager or one of our Renovation Field Managers.

We will schedule a time to measure and follow up with a quote so you can order and keep your project on track.

LAMINATE FINISHES

22 Antique – A heavy-textured surface with varying low gloss sheens, to look like aged stone. *Premium Finish.*

46 Etchings – A medium-textured finish dappled with small indentations, emulating natural granite with variations in matte and gloss sheens. *Premium Finish.*

38 Fine Velvet – A smooth, non-textured surface with a low gloss sheen, similar to a honed granite finish.

01 High Gloss – A smooth-textured surface with polished, mirror-like sheen. *Premium Finish.*

58 & 60 Matte – A fine-textured surface with a low gloss sheen.

35 Mirage – A heavy-textured surface with variations in matte and gloss sheen, to look like natural stone.

52 Quarry – A medium-textured finish with very small indentations to emulate "pitted" look of polished natural stone with a medium gloss sheen. *Premium Finish.*
